

## Architect

Welman Architects

## Size

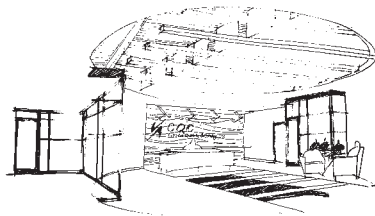

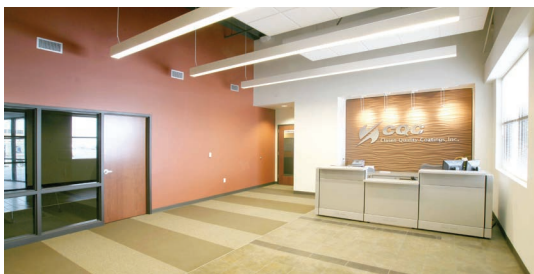

11,000 ft<sup>2</sup>

## Owner

Clasen Quality Coatings

## CLASEN QUALITY COATINGS 5126 W Terrace Dr • Madison, WI

## Highlights

Clasen Quality Coatings, a manufacturer of confectionary coatings, chocolate and fillings, needed a new space for their growing business. This design-build project included a complete demolition and renovation. On the interior, we used beautiful finishes that aligned closely with their brand.

By working closely with the owner and Welman Architects, we were able to complete construction in two short months.

**Amy Wildman** – Project Manager

“We really got to understand Clasen Quality Coatings and worked with them to build a space that reflects who they are. My favorite design concept was the “chocolate” wave walls, because what’s not to love about chocolate?”
